

Thursday, April 10, 2008

10:45 – 12:15 Clinical Trial Workshop (*pre-registration required, FEE: \$200+gst*)
Room: Macdonald E

OBJECTIVES:

To update participants on some current specific and general issues relevant to the optimal conduct of dermatological clinical research in Canada.

FACULTY:

Dr. Kirk Barber
Ms. Lynne Bulger, Co-chair
Mr. Jack Corman
Dr. Paul Kidson, Co-chair
Dr. Harvey Lui

CLINICAL TRIAL WORKSHOP AGENDA:

Ethics Committees: *Dr. Kirk Barber & Mr. Jack Corman*

What are the current issues and situations regarding the ethics review process in Canada, and how will it affect you as an investigator? There is a move to have more provincial boards, and central, private committees seem to have less and less ability to provide a broad based approval. How are approval time lines being affected, how can you maximise your appeal to sponsors regarding your ethics review process, and what does the future look like?

Authorship: *Dr. Paul Kidson & Dr. Harvey Lui*

Relevant issues surrounding authorship will be presented and discussed with the participants from the perspective of physicians/investigators, journal editors and industry.

GCP Update: *Ms. Lynne Bulger*

Lessons learned from recent audits of 50 global clinical trial sites. Best practice tips to enhance your site performance.

10:45 – 3:00 *Ski Break*

Thursday, April 10, 2008

3:00 – 5:00 **CLOSED MEETING – Workshop on Acne and Anti-Fungal**
(by invitation only)
Room: Macdonald E

3:00 – 5:00 **CLOSED MEETING – Update in Pediculosis Management & Assessing Nycomed Dermatology Pipeline** *(by invitation only)*
Room: Macdonald F

4:45 – 5:30 **APRES SKI BREAK FOR OPEN SESSION – Novel Psoriasis Treatment Options: The Clinical Results of Targeting IL-12 and IL-23**
Room: Macdonald Foyer

Alpine Break

Cheese fondue, warm pretzels with assorted mustard
Mini Bavarian sausages on European bread
Carmelized onions
Coffee, Decaffeinated Coffee and Fairmont tea
Assorted Soft Drinks

5:15 – 6:30 **OPEN SESSION – Novel Psoriasis Treatment Options: The Clinical Results of Targeting IL-12 and IL-23**
Room: Macdonald ABC

Objectives:

- To investigate the current unmet medical needs that exist for effective therapies with limited toxicity and side effects
- To uncover whether the blocking of IL-12 and IL-23 with antibodies may lead to improvement in psoriasis outcomes
- To discuss the new clinical trial data on monoclonal antibodies targeted toward the IL-12 and IL-23 blockade in psoriasis

Chair

Lyn Guenther, MD, FRCPC

Professor of Dermatology
The University of Western Ontario
Medical Director
The Guenther Dermatology Research Centre
London, Ontario

Thursday, April 10, 2008

5:15 – 6:30 OPEN SESSION – Novel Psoriasis Treatment Options: The Clinical Results of Targeting IL-12 and IL-23 (*continued*)

Faculty

James G. Krueger, MD, PhD
Professor and Senior Physician
Medical Director
The Rockefeller University Hospital
Co-director
Center for Clinical and Translational Science
Laboratory Head
Laboratory for Investigative Dermatology
New York, New York

Yves Poulin, MD, FRCPC

Dermatology
Associate Clinical Professor
Université Laval
Active Member
Hôpital Hôtel-Dieu de Québec
Québec City, Québec
Centre dermatologique du Québec métropolitain
Québec City, Québec

6:30 – 7:30 *BC Wine Tasting Reception*

Room: Frontenac C

Join us this evening to sample some of BC's finest Estate wines:

*Blue Mountain Brut Sparkling NV
Blue Mountain 2006 Pinot Gris)
Blue Mountain 2006 Pinot Noir
Black Hills Estate Winery 2006 Chardonnay
Black Hills Estate Winery 2006 Carmenere
Herder Vineyards & Winery 2006 'Twin Benches' Chardonnay
Herder Vineyards & Winery 2006 'Josephine'
La Frenz Vineyards 2005 Cabernet Sauvignon
La Frenz Vineyards 2006 Alexandria Muscat
Wild Goose Vineyards 2006 'Estate' Gewurztraminer
Wild Goose Vineyards -2006 'Estate' Riesling*

...continued on next page

6:30 – 7:30 BC Wine Tasting Reception (continued)

Truffle Baked Camembert – pear and golden raisin relish, spiced walnuts; selected crackers, snap bread and baguette
Tapas Breads & Spreads – assorted crisp flatbreads and bruschettas, lentil hummus, roast mushroom tapenade, baba ganoush
Fresh Vegetable Crudite – seasonal selection to include organic and baby vegetables, Ranch dip and blue cheese dip
Chateau Sushi and Maki Rolls

7:00 – 10:30 CLOSED MEETING – ENBREL Advisory Board (by invitation only)
Room: Macdonald E

Friday, April 11, 2008

7:00 – 9:00 CLOSED MEETING – Raptiva Restore Investigator Meeting
(by invitation only)
Room: Macdonald E

7:00 – 9:00 CLOSED MEETING – The Practical Treatment of Atopic Dermatitis: A Global Perspective (by invitation only)
Room: Macdonald F

7:30 – 9:30 Chateau Breakfast Buffet
Room: Macdonald Foyer

Orange, apple and grapefruit juices
Selection of seasonal sliced fruit
Assorted cold cereals including Chateau homemade granola
Assorted breakfast pastries: chocolate and plain croissants, danishes
Muffins, assorted bagels
Plain and flavored cream cheese, sweet butter and preserves;
Bacon, sausage
Hash browns
Scrambled eggs
Pancakes with Canadian maple syrup

Friday, April 11, 2008

9:05– 10:20 Plenary Session 2 Chair: Dr. Richard Thomas
Room: Macdonald ABC

9:05 – 9:20 The Future Management of Psoriasis Prof. Giampiero Girolomoni

9:20 – 9:35 DermaDNA™: The Use of Mitochondrial DNA as a “Biosensor” for UVR Induced Skin Damage in relation to the genetic determination of skin type: Implications for Personalized Skin Care. Prof. Mark Birch-Machin

9:35 – 9:50 Etanercept Treatment in Children and Adolescents with Plaque Psoriasis Dr. Richard Langley

9:50 – 10:05 Biologics: What Can You Really Expect After the Initial Treatment? Dr. Yves Poulin

10:05 – 10:20 Panel and Questions

10:30 – 12:00 OPEN SESSION – Cosmeceuticals – Practical Solutions for Common Problems

Room: Macdonald ABC

Chaired by Dr Jeffrey Dover with special Canadian panelists

Agenda:

Introduction - Dr Lee Bansil PhD, P&G

“Cosmeceuticals- practical solutions for common problems” – Dr Jeffrey Dover
Q&A

Canadian Panel discussion

Q&A and Wrap up

...continued on next page

Friday, April 11, 2008

**12:00 BOXED LUNCH FOR OPEN SESSION – Cosmeceuticals –
Practical Solutions for Common Problems**

Room: Macdonald ABC

Alpine Boxed Lunch

*Mediterranean chicken sandwich with Olive tapenade, confit peppers, roasted garlic
and Pesto spread on French baguette*

Or

Lemon-fennel poached Albacore tuna with Caper aioli on olive baguette

Greek salad

Whole fruit

Bottled water

12:00 – 3:00 *Ski Break*

**3:00 – 5:00 CLOSED MEETING – Challenging Cases in the Therapeutics of
Psoriasis: A Female Dermatologist's Perspective *(by invitation only)***

Room: Macdonald E

**4:45 – 5:30 APRES SKI BREAK FOR OPEN SESSION – Practical
Perspectives in a Biologic Era of Psoriatic Disease**

Room: Macdonald Foyer

Chateau Grill Break

Mini gourmet beef burgers with select condiments

BBQ pork paninis

Potato and yam frites, roast garlic aioli

Coffee, Decaffeinated Coffee and Fairmont Tea

Assorted soft drinks

**5:15 – 6:30 OPEN SESSION – Practical Perspectives in a Biologic Era of
Psoriatic Disease**

Room: Macdonald ABC

Program Objectives:

Discuss, in a practical, case based approach:

- 1) Optimal management of "problem psoriasis"
- 2) Patient management issues pertaining to appropriate patient selection,
screening and safety considerations when choosing a biologic therapy.

...continued on next page

Friday, April 11, 2008

5:15 – 6:30 OPEN SESSION – Practical Perspectives in a Biologic Era of Psoriatic Disease (*continued*)

Dr. Marc Bourcier - (Moncton, NB) - Chair (10 mins)
Program introduction and objectives.

Dr. Marc Lebwohl - (New York, NY)

Topic: Problem Psoriasis (25mins)

Learning objectives:

- 1) Identify and learn how to effectively counsel your problem psoriasis patient
- 2) Discuss the role of systemic therapies in problem psoriasis
- 3) Discuss the role of biologic therapies in problem psoriasis
- 4) Discuss combination treatment strategies for these difficult (recalcitrant) patients

Dr. Richard Langley - (Halifax, NS)

Topic: Practical Aspects of Biologic Therapy in Psoriatic Disease – Safety Considerations (25 mins)

Learning objectives:

- 1) Identify potential safety aspects when considering biologic therapy
- 2) Develop a practical approach in managing patients on biologics with respect to the following clinical scenarios: vaccinations, pregnancy, infections, hepatitis and surgery considerations

Panel Q&A (15 mins) - facilitated by Dr. Bourcier

Saturday, April 12, 2008

7:00 – 9:00 CLOSED MEETING – Linking the Product Profile and Clinical Benefits of Novel Psoriasis Treatment Options to the Efficient Management of Psoriasis Patients in Your Practice

(by invitation only)

Room: Macdonald E

Saturday, April 12, 2008

10:45 – 12:00 OPEN SESSION – Getting to the Root of the Problem: *Delving into psoriasis, common comorbidities, and therapeutic options*

Room: Macdonald ABC

Objectives:

The activity will be led by the national and international experts in dermatology and will shed light on the latest data with biological treatment to improve patient outcomes in moderate-to-severe plaque psoriasis.

Following the symposium, participants should be able to:

- 1) describe and discuss the practical management of patients with moderate-to-severe plaque psoriasis;
- 2) discuss appropriate patient selection and patient counselling once a biologic is considered; and
- 3) identify and discuss the condition's common comorbidities and rationale for biologic therapy. The educational program is supported by Schering-Plough Canada Inc.

Faculty

1. Dr. Ronald B. Vender (Chair)
Associate Professor, McMaster University
Head of Dermatology, Department of Medicine
Dermatology Consultant, St. Joseph's Healthcare
Hamilton Civic Hospital
Hamilton, Ontario
2. Professor Giampiero Girolomoni
Professor of Dermatology
Head of the Department of Dermatology
University of Verona School of Medicine
Verona, Italy
3. Dr. Chih-Ho Hong
Clinical Assistant Professor, University of British Columbia
Diplomate, American Board of Dermatology
St. Paul's Hospital
Vancouver, BC

...continued on next page

Saturday, April 12, 2008

10:45 – 12:00 OPEN SESSION – Getting to the Root of the Problem: Delving into psoriasis, common comorbidities, and therapeutic options (continued)

Agenda:

Practical considerations: *Risk versus benefit of biologics*

Dr. Ronald Vender

Bringing clarity to psoriasis: *Understanding the condition, its comorbidities, and rationale for biologic treatment*

Professor
Giampiero
Girolomoni

Starting from scratch: *Case studies of my first 10 psoriasis patients on biologic therapy*

Dr. Chih-Ho Hong

12:15 – 2:15 CLOSED MEETING – Patient and Clinic Support: Defining Dermatology Needs (by invitation only)
Room: Macdonald E

12:15 – 2:15 CLOSED MEETING – Moving Towards Optimal Topical Therapy for Psoriasis (by invitation only)
Room: Macdonald F

12:15 – 2:15 Buffet Lunch (for participants not attending the closed meetings)
Room: Macdonald D

Sandwich Station

Chef's Soup of the Day

Mixed greens with assorted Chateau dressings

Grilled vegetables, Provolone, sprouts, olive baguette

Chicken Caesar wrap, tomato tortilla

Smoked salmon salad, shaved fennel, purple onion, dill mayonnaise on soft pretzel bread

Smoked turkey breast, Swiss, Dijon mustard, avocado, tomato on 8 grain loaf

Black-forest ham and Brie on rye bread, grainy mustard, cornichon

Pickled vegetables, olives, mushrooms

Pastry Chef's selection of premier cakes, pies and pastries

Coffee, Decaffeinated Coffee and Fairmont Tea, assorted soft drinks

Saturday, April 12, 2008

2:30 – 4:00 Plenary Session 4 Chair: Dr. Jason Rivers
Room: Macdonald ABC

2:30 – 2:45 Ice anesthesia for BTX-A treatment of
Palmar Hyperhidrosis & Juvéderm – a
uniquely versatile and effective family
of fillers Dr. Kevin Smith

2:45 – 3:00 Management of Hair Loss in Women Dr. Jerry Shapiro

3:00 - 3:15 The Burden of Psoriasis and Psoriatic
Arthritis in Canada: Insights from the
Psoriasis Knowledge in Canada (SKIN)
Survey Dr. Chuck Lynde

3:15 – 3:30 Resistant Acne – Concepts in Evaluation
and Management Dr. Jerry Tan

3:30 – 3:45 Restoring natural-looking, long-lasting volume
with Sculptra injectable poly-L-lactic acid Dr. Wayne Carey

3:45 – 4:00 Panel and Questions

4:00 – 4:10 Closing Comments Dr. Chuck Lynde

**4:15 – 5:30 OPEN SESSION – What’s New in the Treatment of Non-
Melanoma Skin Cancer?**

Room: Macdonald ABC

Program Objectives:

After attending the session, participants should be able to:

- Better understand the new approaches in the treatment of non-melanoma skin cancer
- Incorporate new approaches in the treatment of NMSC into their practice

Chair

Jason K. Rivers, MD, FRCPC

University of British Columbia, Pacific DermAesthetics,
Vancouver, BC

...continued on next page

Saturday, April 12, 2008

4:15 – 5:30 OPEN SESSION – What’s New in the Treatment of Non-Melanoma Skin Cancer? (*continued*)

Faculty

Ted Rosen, MD

Baylor College of Medicine,
Houston, Texas

Claas Ulrich, MD

Skin Cancer Center Charité, Department of Dermatology, Venereology and Allergology, Charité – University Medical Center Berlin, Germany

Agenda:

4:15 Introduction & Welcome

Jason K. Rivers, MD, FRCPC

4:45 Squamous Cell in-situ (Bowen’s Disease)

Ted Rosen, MD

5:15 New Comparative Data in Actinic Keratosis

Claas Ulrich, MD

5:45 Q&A and Conclusion

Jason K. Rivers, MD, FRCPC

5:30 – 7:00 *Closing Reception (Host Bar)*

Room: Macdonald Foyer
